

FACC - Fall Conference 2023

Discovering Your Professional Voice: Agility, Confidence, and Impact

Here is helpful information to gain the most benefit from the class on professional presentations.

You will be making a 2-3-minute presentation during the session with a group of four participants. Please come prepared with a relevant topic and three supporting details for that topic. You will have additional time during the session to plan your presentation.

While not required, feel free to bring a supporting visual (photo, picture, graph, illustration) or "prop" for your topic.

See you October 23rd!
